From **Siddhant Maheshwari**

Batch of 2021, Royal Global School - Guwahati

Hi, I am Siddhant. I want to know about Commerce Course. Can you please guide me on these questions related to Commerce Course?

1. What are the factors to check before selecting Commerce course?
2. What are the best colleges for studying Commerce course?
3. How is the Job scope of Commerce course?

Response From **Nishtha Bothra**

Batch of 2019, Royal Global School - Guwahati

Hey Siddhant. Firstly, as such there are no factors to be taken into consideration before choosing Commerce. However, one must have interest in the subjects taught under the stream with a slight inclination towards numbers (as accounts completely deal with numbers). This interest might already exist, or may be developed during the course.

Some of the renowned commerce colleges are Shri Ram Commerce College, Lady Sri Ram, Hansraj, Hindu, St Xaviers ( Kolkata ), NMIMS Mumbai, Christ (Bangalore), and Symbiosis (Pune).

Commerce stream provides a wide scope for your career. During your graduation, You can go for professional courses like Chartered Accountant, Company Secretary, Certified Management Accountant (CMA), Chartered Financial Analyst (CFA), Financial Risk Manager (FRM), Actuaries etc.

Post graduation, you can go for Master of Business Administration (MBA).

You can also go for civil services like IAS.

Thanks for putting forward your query, hope this helps. :)

From **Divyanshi Mittal**

Batch of 2021, Royal Global School - Guwahati

Hi, I am Divyanshi. I want to know about Psychology Course. Can you please guide me on these questions related to Psychology Course.

1. What are the factors to check before selecting Psychology course?
2. Should I Prefer doing Psychology course from India or Abroad?
3. What are the best colleges for studying Psychology course?
4. How is the Job scope of Psychology course?
5. Can one who is not pursuing humanities opt for psychology?

Response From **Aachal Jagati**

Batch of 2019, Royal Global School - Guwahati

Hello, Divyanshi. Your interest in the subject and capability to understand and relate to it solely determines whether you should pursue psychology in the future or not. As far as I am concerned, I will be pursuing my bachelors in India and Masters abroad if it all goes according to the plan. To be honest, pursuing your college entirely from Abroad and from the same country has some added benefits as you are eligible for citizenship in less duration of time and you are exposed to people from all the parts of the World, which enhances your social skills. Also, the curriculum in countries like USA are very informative and deviates significantly from our traditional rote learning strategies, which is highly beneficial.

In India, Lady Shree Ram college in DU and St. Xavier's, Mumbai are highly suggested for Bachelors.

Psychology is a subject which has multiple dimensions and various opportunities in whichever dimension you want to focus on. It is growing rapidly across the world and studying it won't be a regret.

I am from Science background and still will be pursuing Psychology. So, yes, being from humanities is not a condition for opting psychology.
