## Director's Message on Summer Vacation

Dear Students and Educators,

As we come to the close of another vibrant and fulfilling term, I wish to take a moment to extend my warmest wishes for a joyful and meaningful summer break.

Summer vacation is often seen simply <u>as a break from schoolwork</u>, <u>but it is so much more than that</u>. It is not just about completing holiday assignments, projects, or ticking off to-do lists. Rather, it is an opportunity to <u>pause</u>, <u>reflect</u>, <u>rejuvenate</u>, <u>and grow—physically</u>, <u>emotionally</u>, and intellectually.

For our students, I encourage you to look beyond the textbook. This is your chance to explore new hobbies, pursue a passion you've long postponed, be it in music, yoga, art, dance, writing, or sports. Take time to travel, meet new people, and make new friends. Each moment of discovery is a lesson in itself.

For our educators, may this break be a time to refresh your spirit, reconnect with your interests, and return with renewed energy and creativity. Read something inspiring, take a course / professional development training, write a reflection, or simply enjoy the gift of quiet time. You deserve it.

Let us also remember that <u>well-being and mindfulness</u> matter. A productive summer includes taking care of your body—eating healthy, staying hydrated, maintaining a daily routine, and exercising regularly. Engage in simple acts of <u>kindness and charity</u>, <u>help someone in need, and stay connected with your loved ones.</u> These are as important as any academic pursuit.

Summer is a time to listen more, care more, and learn in new ways—beyond the classroom. Let us make it a season of balance: of rest and learning, fun and responsibility, personal growth and contribution to the community.

When we return, let us come back not just older by a few weeks, but <u>wiser</u>, <u>healthier</u>, <u>kinder</u>, and more ready to take on new challenges—together.

Wishing you all a safe, refreshing, and fulfilling summer vacation.

Warm regards,

Dr. Arup Kumar Mukhopadhyay
